ODL

OPEN & DISTANCE LEARNING

ODL offers an effective learning method to overcome the existing barriers compared to the conventional learning mode where learning and teaching are implemented without geographical limitations through the adaptation of the latest digital learning technologies.

ODL which emphasizes on self/independent learning enables students to manage their own learning time. Students can access learning materials in an easy and flexible way at any time in addition to the guidance of instructors and the support of other fellow students. Various methods of communication, such as video conferencing, email, social media, discussion platforms as well as various technologies combined with face-to-face interaction as well as the use of physical and virtual resources.

As ODL learners, students will be able to study at their own pace. This can be achieved through efficient and ideal time management to balance the commitment between study, family and career. All programmes offered are accredited by MQA.

RL

REMOTE LEARNING

We are now introducing Remote Learning (RL) as a way forward for students to engage in their academic learning experience. It is a conventional programme with study methods implemented in situations where students are not physically present in a traditional classroom environment but attending class online and remotely.

Quality of teaching and learning are not compromised with the RL method. Students are able to engage with classmates and lecturers through interactive sessions.

Remote Learning uses the method as currently implemented during the pandemic and requires a dedicated electronic platform such as **SPECTRUM, Google Meet, Zoom, Microsoft Teams & etc.**

OPEN & DISTANCE LEARNING (ODL)

Faculty of Engineering

Programme	Mode
Master of Safety, Health & Environment Engineering	Coursework
Master of Biomedical Engineering	Coursework

Faculty of Languages & Linguistics

Programme	Mode
Master of Arts (Linguistics)	Mixed Mode

REMOTE LEARNING (RL)

Faculty of Built Environment

Programme	Mode
Master of Project Management	Coursework

Faculty of Computer Science & Information

Programme	Mode
Master of Data Science	Coursework

Faculty of Law

Programme	Mode
Master of Commercial Law	Coursework
