Introduction to UNIVER

Vision

A global university impacting the world

Vision

Pushing the boundaries of knowledge and nurturing aspiring leaders

History

1905

King Edward VII College of Medicine, Singapore

1928

Raffles College Singapore

1949

Raffles College was merged with King Edward VII College of Medicine to become the Universiti Malaya.

1962

Universiti Malaya Kuala Lumpur

University of Singapore (now known as National University of Singapore)

RSITI MALAYA

The University of Malaya derives its name from the term 'Malaya' as the country was then known. The Carr-Saunders Commission on University Education in Malaya, which recommended the setting up of the University, noted in its Report in 1948: "The University of Malaya would provide for the first time a common centre where varieties of race, religion and economic interest could mingle in a joint endeavour, for a University of Malaya must inevitably realize that it is a university for Malaya."

WHY should you be part of UM

Proud History

Since its inception in 1905, Universiti Malaya has received recognition and accolades in the arena of academic, research and social interests. Universiti Malaya will always be home to notable alumni, and we take pride in the diversity of students populations, races, religions, and nationalities in the quest for knowledge.

1

All-inclusive Academic Programmes

With more than 200 academic programmes, which comprises foundation, undergraduate, and postgraduate programmes, Universiti Malaya offers broad-based and wide-ranging opportunities to prospective students to enrol in its world-ranked academic programmes. Our innovative educational innitiatives include immersion of learning through industrial engagement and flexible programme delivery.

4

Diverse Programmes Offerings

As part of the effort in ensuring its survival and sustainability in the digital world, Universiti Malaya is now opening doors of possibilities to its potential students around the world to partake in its academic programmes through manifold channels, namely Online & Distance Learning mode, Remote Learning mode as well as Micro-credentials mode, which are up for grab!

5

Flexible Academic Curriculum

We offer vast opportunities through double major programmes as well as major-minor programmes as an option for the students in the effort to increase their employment prospects in the job market and in widening their chances of career choices.

8

Admirable Location & Affordability

Situated in the heart of Kuala Lumpur - Malaysia's capital city, studying in Universiti Malaya is made easy with rewarding experiences having to be in close proximity to the main city. Kuala Lumpur that, is known for its affordability for food, transportation, accommodation as well as tourist attractions, is indeed a steal for many.

9

Premier Research University

The research ground is pillared by 4 focal research clusters which spread over 50 research centres in its vicinity as well as within its renowned research institute, namely, the National Higher Institution Centre of Excellence (HiCoE), the Universiti Malaya Centre of Excellence (UMCoE) and the Academy of Science Research Centres which houses high-impact research and innovation for the country.

2

World-Ranked University

Being ranked impressively well in the past few years speaks volumes of the university standing as the first and top university in Malaysia. It has also contributed tremendously by putting Malaysia and Universiti Malaya on the map. We are also proud to share that according to the Quacquarelli Symonds (QS) university rankings. we are currently ranked;

- 65th in the World
- 8th in Asia

3

Comprehensive Learning Experience

Universiti Malaya is not what it used to be 100 years ago, dynamically improving its curriculum in upholding the humanistic values that enrich the heart and soul of its students; we take pride in the initiatives such as Student Holistic Empowerment (SHE) programme, Internship Programmes, Fast-Track Programme and Inbound & Outbound Mobility Programmes to enhance students' learning experience.

6

Renowned Collaborative Programmes

Our innovative international dual programmes include the Double Bachelor's Degree, Dual Master's Degree and Dual PhD Programmes via reputable partnerships with renowned universities that are coming from France, German, Japan, Iran, United Kingdom, Australia, Indonesia, Cambodia and many others.

7

Multicultural Diversity

In the effort to be a global university that is impacting the world, Universiti Malaya is always at the forefront in welcoming outstanding talents and individuals from different walks of life to be part of its successes, and that said, we are currently home to more than 4,400 international students from 85 countries to date.

RL
Remote Learning

We are now introducing Remote Learning (RL) as a way forward for students to engage in their academic learning experience. It is a conventional programme with study methods implemented in situations where students are not physically present in a traditional classroom environment but attending class online and remotely.

Quality of teaching and learning are not compromised with the RL method. Students are able to engagewith classmates and lecturers through interactive sessions.

Remote Learning uses the method as currently implemented during the pandemic and requires adedicated electronic platform such as **SPECTRUM, Google Meet, Zoom, Microsoft Teams & etc.**

Benefits of Remote Learning

Flexibility
Allows students to earn a degree without living near a college campus or without the hassle of travel. It offers more flexibility and control over your own learning schedule as most of its resources are provided online, remote students have the privilege of learning where they wish.

Quality & Technology-driven
The quality of programmes offered through RL is equivalent to the conventional programmes offered on campus. MQA fully accredits all programmes offered. Besides, UM has a teaching and learning management platform that is easy to use and allows students to remain connected and access digital learning material online from the comfort of home.

Cost Effective
Tuition fees of RL programmes are very much affordable compared to conventional programmes offered by most other private universities. Remote learning eliminates extra costs like housing, transportation, and other living expenses, allowing students to save more money each semester.

Ability to self-discipline
To be successful, remote learning requires its students to be just as efficient and organized as they would be in a traditional academic setting, helping mould them into self-motivated, responsible individuals.

Application can be submitted at **apply.um.edu.my** (MAYA Portal).

ODL

Open & Distance Learning

ODL offers an effective learning method to overcome the existing barriers compared to the conventional learning mode where learning and teaching are implemented without geographical limitations through the adaptation of the latest digital learning technologies.

ODL which emphasizes on self/independent learning enables students to manage their own learning time. Students can access learning materials in an easy and flexible way at any time in addition to the guidance of instructors and the support of other fellow students. Various methods of communication, such as video conferencing, email, social media, discussion platforms as well as various technologies combined with face-to-face interaction as well as the use of physical and virtual resources.

As ODL learners, students will be able to study at their own pace. This can be achieved through efficient and ideal time management to balance the commitment between study, family and career. All programmes offered are accredited by MQA.
